

**We've been satisfying customers  
for over 25 years**

You don't have to look far to find a satisfied customer with Elko Products. They're everywhere.

Why? Because Elko® GuttaPro™ is installed by professional, Elko-certified contractors at a much lower cost than our high-priced branded competitors. How do we do it?

- Elko® GuttaPro™ installs faster than any competitive product with our new, patent-pending Twist-Lok™ clip
- Elko manufactures its products in a high-speed, automated, state-of-the-art facility
- Elko has been manufacturing high quality gutter protection products since 1983

## The ELKO® GUTTA PRO™

Elko Products Company has been manufacturing high quality, solid aluminum gutter protection for more than two decades. We manufacture each product to exacting quality standards, and when used and installed properly, our products perform as promised in our literature and promotional materials.

**Limited Product Warranty:** For 20 years after the date of purchase or installation, whichever is later, Elko warrants that your Elko GuttaPro product will be free of material defects, including blistering or peeling of paint. Read our full Limited Product Warranty for details.

**Limited Performance Warranty:** For 10 years after the date of installation by a certified Elko installer, Elko warrants that your Elko GuttaPro gutter protection system will not clog. This includes your Elko GuttaPro, your gutters and your downspouts. Read our full Limited Performance Warranty for details (available at [www.elkoproducts.com](http://www.elkoproducts.com)).

If you have any additional questions, ask your dealer or certified Elko installer, or call our toll free hotline at **1-800-331-4273**, or visit us online at [www.elkoproducts.com](http://www.elkoproducts.com). You may also e-mail us at [info@elkoproducts.com](mailto:info@elkoproducts.com).

ELKO®

# GUTTA PRO™

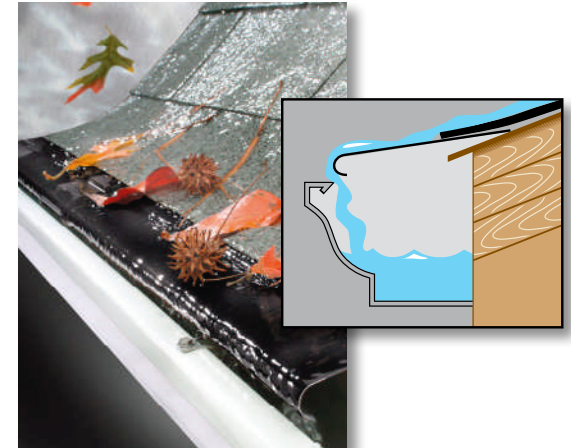

PROFESSIONAL GUTTER PROTECTION

## End Gutter Clutter

*High Quality, Solid Aluminum Gutter Protection Since 1983*

### FEATURES:

- 10 Year No-Clog Guarantee
- Heavy Duty Reinforced Panels
- Low Profile Attaches to Existing Gutters

**From a name you can trust...**

**Over 25 million feet of gutter protection since 1983!**

Since 1983, more than 25 million feet of Elko® gutter protection products have been installed on more than 250,000 homes nationwide. Our customer satisfaction ratings\* consistently exceed 95% with our homeowners, our certified installers, and our wholesale distributors.

The reasons for ELKO's long success are:

- High quality, great performance and low cost
- Installs under first shingle with no nails, screws or holes in the roof or fascia - low profile!
- Can be installed over existing gutters
- Made from heavy duty, reinforced aluminum

Toll Free Hotline: **1-800-331-4273**

- Handles up to 8" of rain per hour, enough to handle even the heaviest torrential downpour anywhere in the U.S.A.
- Eliminates the hazardous job of cleaning your gutters and downspouts
- Prevents water damage to your basement, foundation, windows, overhands and siding
- Eliminates the risk of standing water and the problems associated with mosquitoes
- Is available in black, brown, gray and white and 12 ounce solid copper

**The ELKO® GUTTAPro™ keeps water flowing freely**

All year long, pine tags, leaves, pollen and other debris fall from trees and clog your gutters. Elko® GuttaPro™ will protect your home from gutter clogs and water damage . . . at an affordable cost!

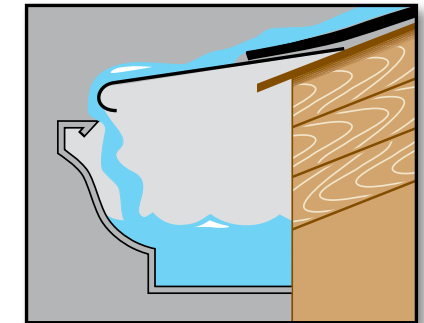

*"Made of aluminum with no openings . . . Water running down the roof flows over the curve and into the gutter, debris slides off and falls to the ground."*

**- NY Times**

**ELKO's patent-pending system works for you through every season**

Season after season, year after year, Elko® GuttaPro™ works hard to keep your gutters and downspouts clog-free. Constructed of heavy-duty .018" reinforced aluminum, Elko GuttaPro's two ribs strengthen the panels and create a "sheeting" effect, allowing far greater volumes of water to enter your gutter system... Up to 8" of rainfall per hour!

**Water flows into the gutter while debris falls to the ground**

\* Independent survey conducted annually by Elko Products Co. Inc.
